Adolf Bastian and the Psychic Unity of Mankind: The ...

Adolf Philipp Wilhelm Bastian was a 19th-century polymath best remembered for his contributions to the development of ethnography and the development of anthropology as a discipline. Modern psychology owes him a great debt, because of his theory of the Elementargedanke, which led to Carl Jung's development of the theory of archetypes. His ideas had a formative influence on the "father of American anthropology" Franz Boas, and he also influenced the thought of comparative mythologist Joseph Camb

Adolf Bastian - Wikipedia

Adolf Bastian (born June 26, 1826, Bremen, Ger.—died Feb. 2, 1905, Port of Spain, Trinidad), ethnologist who theorized that there is a general psychic unity of humankind that is responsible for certain elementary ideas common to all peoples. Bastian proposed that cultural traits, folklore, myths, and beliefs of various ethnic groups originate within each group according to laws of cultural evolution and are essentially the same, merely differing in form because of geographic environment.
