Reports - Bangladesh Agricultural Extension Network

Agricultural extension is the application of scientific research and new knowledge to agricultural practices through farmer education. The field of 'extension' now encompasses a wider range of communication and learning activities organized for rural people by educators from different disciplines, including agriculture, agricultural marketing, health, and business studies. Extension practitioners can be found throughout the world, usually working for government agencies. They are represented by

Agricultural extension - Wikipedia

Mission Statement The mission of the "Journal of Agricultural Extension" is to publish conceptual papers and empirical research that tests, extends, or builds agricultural extension theory and contributes to the practice of extension worldwide.

Journal of Agricultural Extension

Whilst it is still common for agricultural extension workers to be male and to interact only with men, in recent years there has been growing recognition of women's role in managing farm households and the importance of female to female communication in the adoption of new farming methods and technologies. [17]

Agriculture for Impact Agricultural Extension

In agricultural extension agencies, control in hierarchical level is made possible through communication. Communication is the unavoidable tool that makes organization work out possible. It is the vehicle through which the basic managerial and administrative functions are carried out. Managers and administrators direct through communication.

The importance of communication in Agricultural Extension ...

"Agricultural communications" is an emerging field which is naturally both part of the "agriculture" and "communications" literature. However, it is much broader than just a subset of each. The coverage of standard databases such as CAB Abstractsand Communication Abstracts, while a good start, does not sufficiently cover the field.
