Naturalism Defeated Essays On Plantingas

Edited by James Beilby Naturalism Defeated is a collection of essays responding to Alvin Plantinga's thesis that human rationality is unlikely in a purely naturalistic view of evolution, or in other words, if human cognitive faculties developed in an entirely undetermined manner it is unlikely that reason would be reasonable.

Amazon.com: Naturalism Defeated?: Essays on Plantinga's ...

Almost a decade ago, Alvin Plantinga articulated his bold and controversial evolutionary argument against naturalism. This intriguing line of argument raises issues of importance to epistemologists and to philosophers of mind, of religion, and of science. In this, the first book to address the...

Naturalism Defeated? A collection of essays entitled Naturalism Defeated? (2002) contains responses by 11 philosophers to EAAN. According to James K. Beilby, editor of the volume, Plantinga's proposition "raises issues of interest to epistemologists, philosophers of mind, evolutionary biologists, and philosophers of religion".

Evolutionary argument against naturalism - Wikipedia

Plantinga's argument centres on his conclusion that Naturalism and the Theory of Evolution (NE) are rationally incompatible because they gives rise to significant "doubts about the reliability of our cognitive faculties" (Beilby 2002 pp. 2) which in turn form a rational 'defeater' - an argument which, on the balance of probability, gives us reason to significantly doubt an established assumption/conclusion.

Truth and Natural Selection: a Criticism of Plantinga's ...

An Evolutionary Argument Against Naturalism by Prof. Alvin Plantinga The following is the outline of the lecture Prof. Plantinga gave at BIOLA University. A. THE PROBLEM theism: we human beings have been created by a wholly good, all powerful and all knowing person: one who has knowledge, aims and intentions and acts to accomplish them.

An Evolutionary Argument Against Naturalism

Plantinga, "Reply to Beilby's Cohorts" in James Beilby, ed., Naturalism Defeated? Essays on Plantinga's Evolutionary Argument Against Naturalism (Ithaca: Cornell, 2002) 204-275; and Alvin Plantinga, "Respondeo" in Warrant in Contemporary Epistemology: Essays in Honor of Plantinga's Theory of

On Alvin Plantinga's Evolutionary Argument against Naturalism

Plantinga's argument is aimed at metaphysical naturalism or roughly the view that no supernatural beings exist. Naturalism is typically conjoined with evolution as an explanation of the existence and diversity of life. Plantinga's claim is that one who holds to the truth of both naturalism and evolution is irrational in doing so.

Naturalism Defeated?: Essays on Plantinga's Evolutionary ...

Plantinga's argument is intended to show that evolutionary naturalism cannot be rationally affirmed. It might be true, but it cannot be rational to affirm it as such. Here is how he formulates the argument in his recent *Where the Conflict Really Lies* (Oxford University Press, 2011, pp. 344-5): 1.

Plantinga's Evolutionary Argument against Naturalism - The ...

In Alvin Plantinga's evolutionary argument against naturalism (EAAN), he contends that someone who holds both naturalism (N) and evolution (E) acquires an undefeated defeater for her belief that 'human cognitive faculties are reliable' (R) and as a result an undefeated defeater for everything else she believes when she comes to realize that P (R/N&E) is low or inscrutable.

Does Plantinga's evolutionary argument against naturalism ...

Edited by James Beilby *Naturalism Defeated* is a collection of essays responding to Alvin Plantinga's thesis that human rationality is unlikely in a purely naturalistic view of evolution, or in other words, if human cognitive faculties developed in an entirely undetermined manner it is unlikely that reason would be reasonable.

Amazon.com: Customer reviews: Naturalism Defeated?: Essays ...

This paper seeks to explain Plantinga's Defeater Thesis and the basis for his beliefs, including his claim that the naturalist has a defeater for R and other beliefs. The Probability Thesis holds that individuals are the product of an undirected evolutionary process, in the event that both N and E are true.
