You can and should take notes while listening because you will have the opportunity to look over those as you answer each question. Questions are designed to measure your understanding of main ideas, implications, relationships between ideas, important details, speaker purpose, organization of information and speaker attitude.

[Lipids and fat metabolism - AMBOSS](#)

The AMA devised a 3-year curriculum including two 6-month lecture sessions, a 3-month dissection laboratory, and a 6-month session of "hospital attendance." Dr. William Osler created the first medical residency. By the 1930s, MDs were required to complete a 1-year internship following completion of medical school.
